(NUN)

Ancient (**TaMa-Rean**) Egyptian Word and Principle for 1st, Prime, **Hidden Potential** and **Infinite Possibilities**. The Original Creative Forces of the Universe (Nature), the **Black Light** of **Intellect** (**Mental Energy**), the **Black Waters** or **Celestial Waters** known as the **Etheric Realm**, formless **Ethers**, Un-manifested energies, Nameless.

The Eternal Now!

*“As **African People** our **Minds** are linked to **ALL Eternal** and **Almighty Nature**, what we can conceive in our **Minds** will be, see it and so shall it be seen”.*

*– **Neb Heru***

The Symbol on the Front Cover

The Egiptian Ankh/African Cross –

The **Egiptian Ankh/ African Cross** is a symbol of **Life, Happiness** and **Vitality**. The **Ankh** is the **Original Cross**, used anciently throughout **Africa**, and seen today in **Ghana** as the Symbol of **Fertility**, ***“The Key to Everlasting Life”***. The **Ankh** is also a symbol of **Vital Life Force Energy**. We as **African People** have been pumping

life into the world for time memorial.

The **Ankh** is also, known as the **African Cross**, which

was the original cross, before **European settlers** came and turned the symbol of **“Life”** to a symbol of **“Death”**. We as **African People** are the **Life, Salt, and Soul** of the **Planet Earth (PTAH-NUN)**. The **Ankh** is our **true symbol**. As you look at the **symbol of Life**, you will notice it resembles the **Akan** symbol for **“Fertility”**, because

they are the same symbol. **Fertility** produces life, “**NU**” Life!

We chose to use the symbol of the “**Ankh**” on the cover of these writings to symbolize an old ancient symbol coming back to “**NU**” (NEW) Life!

Africa is truly on the Rise!

In this New Millennium we are rapidly becoming familiar with the Laws of Nature on Earth and throughout the Universe as a whole. The message around the world is “GO GREEN,” everywhere you turn; people are finding ways to “Go Green” to balance their lives in accord with Natural Law. People in this new Millennium are slowly but surely starting to pick up a “Green” Mind.

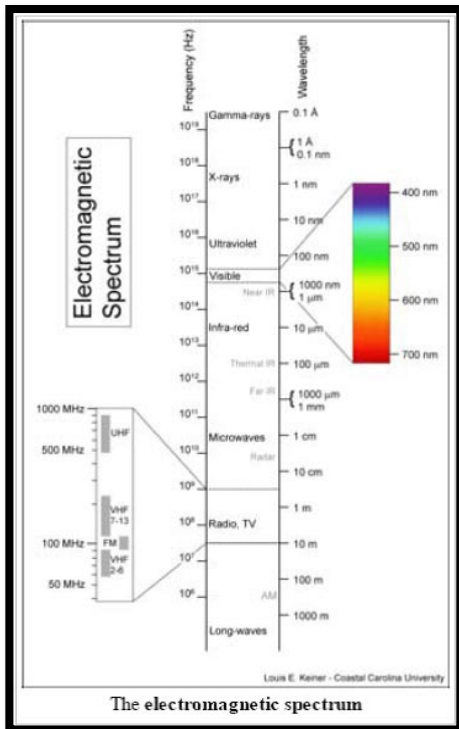

The Color Green represents growth, youthfulness, hope and vitality. Green is also the color of what is termed the “**Hadus Qatum**” (Divine **Melanin**) in our Ancient TaMa-Rean language Nuwaupic, Manifested on the Planet Earth (**PTAH-NUN**) as Green. Green is also the color of growth and vegetation. Thus Green symbolized rebirth, life and Green has preserving powers. We Egyptian/Cushites are 9 Ether, life force, healing Ether beings and we have always been known as Green Beings.

The Color Green is a manifested Color from an unseen, hidden (**AMUN**) source which is known as **NUN (NU)** in Ancient **TaMa-RE** (Egypt) or **Black Light Energy**. **Black Light** is a combination of all existing Colors or Frequencies on the Full Light **Electromagnetic Spectrum**. Black light slows down in vibration to UV (**Ultra Violet**) Light, which in turns

manifest through the visible light spectrum as Green Light, again seen in the vegetation of the Planet Earth (**PTAH-NUN**).

In Ancient **TaMa-Re** (Egypt) the Neter (Deity) **Asaru**, **Asar**, **Osiris** was referred to as “The **Neb** (Lord) of the Perfect Black”, symbolic of “Blackness” (**NUN**) from which light comes or manifests. It was said to the Egyptian initiates: “**Asaru** (Osiris) is a dark Neter (Deity, God) because no man could know him and also because Light is born out of Darkness (**NUN**, Black Ethers).

We are moving into the Era of Air, **Ether**, and **Mind Power**, known to many as the **Aquarian Age**. This New Age is a **Spiritual Era** that the world is “Now” ready to accept, the Era of **Intellectual Light**, **Healing Light**, all coming from the

Primordial Abyss, “**NU**” (**NUN**), the Pure Black Ethers of your Mind.

“NU” (NUN) “The Perfect Black”

– Symbolic of the blackness deep in our Minds which we must explore and master in this day and time in order to find our true selves. **NU (NUN)** is the power behind all life, pushing it forth in a relentless movement to live, die and be reborn again (**Eternal**). **Osiris –Asaru** is known as “**The NEB (Lord) of the Perfect Black.**”

Energy, Planes and Vibration

“Nothing rests; everything moves; everything vibrates in The ALL, yet movement is not ALL.” – Wisdom of the Supreme Grand Hierophant Tehuti

Modern Science today in the Realm of **Physics** has discovered that The Highest and Lowest forms of **Matter** and **Energy** that have been detected are but *“Moods of Vibratory Motion”*. Everything is **Vibration**, which manifest itself in different **Moods** and **Schemes**. This expression of the **Vibration** is called a **“Mood”**. Each *Mood* acts and reacts continuously, carrying out the life processes. These *Moods* make up what is known as **“Planes”**. **Planes** are **Moods** and **Schemes** of **Vibration**, existing in very unique forms. *Moods of Vibration* may be likened to the varying degrees of temperature, such as Extremely Low, to Extremely High.

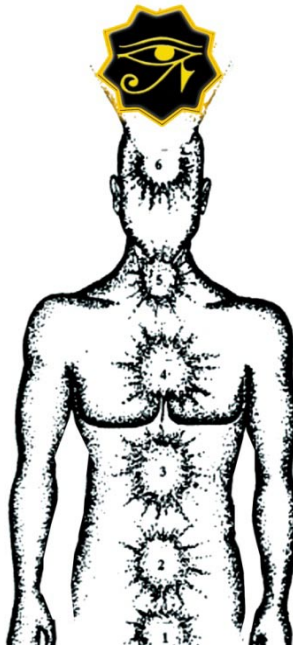

The Plane of Force

There are an Infinite number of Planes throughout existence, on this side of **Hydrogen** (H1) there are a total of **Nine**, for each of the *“Nine Energy Seats of Consciousness”*(**Chakras, Arushaat, Wheels of Life**)

found in the African Physical make up known as “**Seats of Awareness**”.

The names of the first four planes are:

1. **Material Plane** (Physical Plane) – All Physical and Material substance (form)
2. **Plane of Forces** – Life force Energy (Chi, Prana, Sekhemic Energy)
3. **Spiritual Plane** – Where Emotions are formed
4. **Mental Plane** – Where Thoughts are formed

Now at this time we will introduce you to the ***“Plane of Force”***. The ***Plane of Force*** (Forces Plane) is perfectly woven into all **Matter** on the **Material Plane**. The Basis or Mother of **Matter** is **“Nature”** and Nature is resulted from the ***Plane of Force***. The Plane of Force is governed by a very **“Positive”** force called **Attraction** (A Law in Nature). The **Plane of Force** and the **Material Plane** (Physical Plane) work together in perfect **Harmony**. If this were not true, the ***“Cycles of Nature”*** would not be completed so perfectly and faithfully each year.

The **Plane of Force**, also called the **“Energy Plane”** consists of ordinary forms of energy like **Heat, Light, Attraction, Magnetism, Electricity**, etc. As well as the forms of **Energy** which are finer, that gives Human Beings and Nature vitality and the ability to grow and reproduce. This Vital Life Force, which sets life on the Physical into motion and is responsible for growth and reproduction, is called **“Nafas”** in Ashuric / Syric Arabic, also known as **“Prana”** to Hindus, and in Ancient **TaMa-Re (Egypt)** it is named **“Sekhem”**, meaning **Power** and In **Hebrew** the word **Nafesh** mean **“Breath”**.

Because the Plane of Force consists of **Etheric** duplicates of things on the **Material Plane** (Physical Plane) or counter parts, the **Plane of Force** and **Material plane** (Physical Plane) work together in perfect *“Harmony”*. The things you are seeking to Manipulate on the **Material Plane** (Physical Plane) contain the same **Ethereal Substance** or **Material** as that, is on The Plane of Force. The *“vehicle”* of this Plane of Force in Humans is the **Subconscious Mind**.

The **Plane of Force** is all around us, and is as much a part of our makeup as the **Material Plane** (Physical Plane). There are Forces on the **Plane of Force** many have yet to uncover and comprehend; these are the Forces that control the Forces that result in what we call *“Nature”*.

The Lower Forces consists of ordinary forms of Energy like **Heat, Light, Attraction, Magnetism** and **Electricity**, etc... But the **Higher Forces** are those forms of Energy which are finer, they give Humans and Nature vitality and the ability to grow and reproduce.

The Basis or Mother of Matter is Nature and **Nature** is a result from the **Plane of Force**. The **Plane of Force** which is energy in all living things, or inside all

living things. The **Plane of Force** access point is through the **Subconscious Levels of Awareness**. Your Mind feeds off the **Mental Reservoir** (Universal Consciousness) of Intellect. Mind is the individual part of you that feeds off the **Mental Reservoir** (Universal Consciousness), the thought patterns of the **Soul** or **Spirit**.

Energy is Magnetic

One of the **Laws of Energy** is that *“Energy of a certain quality or vibration tends to attract energy of the similar quality and vibration.”* Thoughts and feelings have their own **Magnetic Energy** which Attracts (by way of the **Law of Attraction**) energy of a similar nature. We can see this principle at work, for instance, when we “accidentally” run into someone we’ve just been thinking about, or the phone rings and the same just happened, the person we have been thinking about calls. Also we pick up a book which contains “**exactly**” the perfect information we need at the moment.

Energy is vibrating at different rates of speed and vibration thus has different qualities, from finer and more refined to more dense. Thought is relatively, finer and of a higher quality vibration, a light form of

energy and therefore very quick and easy to change. Matter on this physical plane of existence is relatively dense, compact energy, and therefore slower to move and change. Within matter there is a great variation as well. Living flesh is relatively fine, changes quickly and is easily affected by many things. A rock for example is vibrating at a slower rate thus appears to be a more denser form, slower to change and more difficult to affect. Yet, even a rock is eventually changed and affected by fine, light energy of water, for example. All forms of Energy are interrelated and can affect one another.

Once we begin to realize that we are all truly Energy, a whole new world of “Perception” opens up. We are all energy and everything within and around us is made up of energy (**Ether**). Things appear to be solid and separate from one another on the level at which our Physical senses are able to normally perceive them. On finer levels (**Quantum**), on more atomic and subatomic levels, seemingly solid matter is seen to be in reality smaller and smaller particles within particles, which eventually turn out to be just pure Energy (**Ether**).

The Law of Radiation and Attraction

There is a Law (Principle) in the thought world that states “whatever you put out into the Universe will be reflected back to you.” As you sow, so shall you reap! What this means from a practical standpoint is that we always “**Attract**” into our lives the kinds of thoughts and images we are holding in our Minds. Whatever we think about the Most, believe in our hearts strongly, expect on the deepest levels, and or imagine most vividly will attract or come to us and manifest in our lives.

When we are **negative** and **fearful, insecure** or **anxious** we will tend to attract the very experiences, situations, or people that we are seeking to avoid. When we are positive in attitude, expecting and envisioning pleasure, satisfaction and happiness, we will attract and create people, situations and events which conform to our positive expectations. So the more **Positive** Energy we put out into the universe, the more Positive images we hold in our minds the more it begins to manifest in our lives.

The Laws of Attraction and Repulsion

“Likes repel each other and opposites attract each other.”

These laws also apply to the **Positive** and **Negative** currents in the Human System. Sensing and Acting are **Negative** (receptive, receiving) and **Positive** (sending, outgoing). Therefore **“Action”** in one person is always **“Attracted”** to Receptivity or Sensing in another. **What you send out will return to its sender.** We see this in the Male-Female relationship. Where the Active out-going Male Nature is paired with the receptive passive Female Nature, which makes one compatible with another.

The Only Power

He or She who is looking for wisdom, power, freedom of expression, health and permanent success, will find it only within. *“Mind is the only cause”*. Your body is *healthy* or *sick* according to the images of thought you are holding in your Conscious Mind that impress themselves upon your Subconscious Mind. If you will hold thoughts of Health instead of sickness and disease (dis-ease) if you will banish and eliminate all thoughts of disease

(dis-ease) and decay, you can build up a perfect body. For all disease starts in the Mind! The “Secret to Rejuvenation” is to blow the dust off those old pictures, of when you felt you were in perfect, youthful health. Pull these pictures out, remember how you felt, tap into this feeling, of youthfulness, strength, confidence, courage and a healthy successful life. Look at this picture or pictures of yourself frequently and wait for little seemingly miracles occur in your health life.

You want to stay “feeling” young and have an abundance of energy, pull out those old CDs and Records, that you used to listen to when you were young, this has a positive effect on the Mind and the Brain as a whole. The Brain is the only organ that does not rejuvenate itself, the Brain stores all past and present experiences, it does not know it’s not 1970, 1980 or even 1990. It is highly recommended to listen to Music from your generation in order to promote youthfulness, vigor and longevity. In fact listening to Music of when you were a child and you remember your Mom or Dad, your Grandma or Granddad singing, or listening to the oldies; of their time, the Sound Waves will “re-activate” dead, brain cells, this is one of the keys to rejuvenation, or the “fountain of youth”.

Again, “get those old records out!” Put them on, play them, and reflect on when you were a child, of full Health! It will give you new found feelings of youth; it will actually make you younger in Heart, Body and Mind!

This is just one of the many “Practical Power Visualization” exercises we will be revealing in the “*Nu African Mind Series*”.

You’re Electro-Magnetic Body!

Electromagnetic Field (AURA)

There are two currents of Electrical Energy that run through your body creating a “**Magnetic Field**” called your **Haalat** or **Aura**, your **Electro-Magnetic Field** (Aura) is a part of Earth’s (**PTAH-NUN**) Magnetic Field in which your **Aura** (Electro-Magnetic Field) Moves independently. These fields are composed of Negative and Positive vibrating Energies or Forces. These forces are known as:

Centripetal Force – That comes towards the Planet Earth (PTAH-NUN) from the universe (i.e. Energy from the Sun, Moon, and stars or other Solar Bodies.)

Centrifugal Force – Force that comes from (within) the Planet Earth (PTAH-NUN), (i.e. energy from plants, minerals, the soil, and water).

Human Beings Aura (**Halaat**) contains your Spirit (**KAA**), Soul (**BAA**), and Physical (**KHAT**) form. The Halaat (**Aura**) which is the “Life Force” (**Ankh**, **Sekhemic Energy**) of the Body may be looked upon as the **Atmosphere** of the Body, because your **Aura** reflects the “Real” vital Body, Mental Mood, (Emotional Energy), Health and Character.

Notice the word “**Atmosphere**”, which is very key to knowing your relationship with Planet Earth (**PTAH-NUN**) and ALL (**PAUT**).

The word **Atmosphere** is defined according to the Merriam Webster’s Colligate Dictionary as: (N) Greek Atmos – “Vapor”, Sphaera, “Sphere”. (*The gaseous envelope of a celestial body, “as a planet”*), a surrounding **influence** or environment.

The word **Influence** is defined as: (Influere – *to flow in*) from Fluere “**to Flow**”.

- An **Ethereal (Etheric) fluid** held to flow from the stars (*which are Suns*) and to affect the actions of Humans.
- An **Emanation** of occult (hidden) power held to derive from stars (SUNS).
- An **Emanation** of Spiritual or moral force.
- The act or power of producing an effect without apparent exertion of force or direct exercise of command.
- The Power or capacity of causing an effect in **indirect** or **intangible** ways: To sway

The word ***Emanate*** is defined as: from “Manare” **to flow**, to come out from a **source**. “***Emit***”.

So according to these definitions your **Aura** which is the **atmosphere of the body**, can be seen as having an “***influence on your environment***” via your “**thoughts**” which is your mental state and mood which is your Emotional Energy or Energy in Motion, which is “**Electro-Magnetic**” in nature. So at times depending on your Emotional Moods you can have a **Aura** or Atmosphere around you of Positive **9ether**, life giving forces, or Negative, draining **6ether** death causing gases. So these different layers or Moods of Vibration (*Emotional Energy*) are reflected in colors, which may appear cloud like or bright and clear according to the **Emotional Mood** a person is vibrating on. The colors and moods of vibration fluctuate depending on a person’s mental state, and mental attitude. Positive mental attitude reflect bright, clear and vivid colors which attract 9ether life giving, vitality particles.

A Person’s **Aura** can be felt, which is why you have heard the statement many times “that person gives off a good vibe,” The word vibe equals **vibration**. Some people are a pleasure to be around, they seem to revitalize, and invigorate everyone they come in

contact with. These are your life giving people who have Positive Etheric particles within their Energy Fields or **Aura**. All they attract is good and Positive. These are the people who always seem lucky or always seem to be upbeat and have a Positive outlook on everything. They are upbeat and full of life!

Then you have the person who seems to “***drain your energy***” when you come in contact with them, you have stepped into a negative Aura atmosphere (Energy field), an **Aura** atmosphere full of fear, doubt, worry, and anxiety. After being around such energies emitting from these kinds of people, you start to doubt yourself, and your confidence is undermined. This means their **Aura** is spilling into yours, and they are sucking your energy, such people in this day and time are known as “**Energy Vampires**”. They seem to complain about life and all the Negative things that happen. They love to play the victim role or “why me”, “poor me” role. These kinds of people have crystallized a negative **Aura** Field around themselves subconsciously, which remember, is reflected by your **Mental attitude**. Having negative thoughts attract these negative etheric energy forces within your **Auric Fields**.

These types of people if you are not able to raise their Mental State, thus raising their vibration or at least teach them how to stay on the “Positive Life,” frequency should be avoided at all cost.

Question: As Qatum (Melaninite) Beings are we linked to ALL that is around us?

Answer: Yes, as **Qatum** (*Melaninite Children*) you are linked and influenced by your environment, you are linked to the Plants, for Plants have an **Aura** or Energy Field, Animals have an **Aura**, Trees, Bugs, Insects, Dirt, Water, all emit an **Aura** and a Mood, a Vibration. Again what we will start to realize in the coming years leading up to 2012 and beyond, you as Qatum (Melaninite) beings, your **Aura** is “infinite” and “boundless”, your **Aura** is directed by the Powers of your Mind. Everything has an effect on everything. No matter where you are on the Planet Earth (**PTAH-NUN**), in the Universe or Galaxy. Planets have an effect on other Planets; Solar bodies affect Solar bodies, thus ALL within ALL.

Question: What is Electromagnetism?

Answer: **Electromagnetism** is “**Magnetism**” produced by an electric change in motion. The

Physics of Electricity and Magnetism, it created its own opposites. **Electro-Magnetism** = Magnetism developed by a current of electricity. Thus you have **“Attraction”**.

Knowing these Laws within Nature (**Neteru**) and how they operate is very important. Once you **“know”** then these things become more real, factual and practical to you and easy to overstand and apply to your everyday life. Let’s look at the word **“Knowledge”**, when viewing this word we see the first four letters are **“K-N-O-W”** which gives you the word **“Know”**, so to **“KNOW”** a things means you have **“Knowledge”** of it. Knowing increases your awareness and the more you know the more you can **“Positively”** do!

According to the *Merriam Webster’s Collegiate Dictionary* the word **Know** is defined as: To have understanding (overstanding) of, to recognize the nature of: **DISCERN**: To have **Experience** of.

DISCERN means: To come to **know** or recognize mentally, **DISCRIMINATE** right from wrong.

So the **“Right Knowledge”** gives one the ability to **“KNOW”** right from wrong, and knowing these laws

within Nature (**Neteru**) gives you the power **Universally** to know right from wrong thus placing the Power of the **Creator (The Source of ALL)** back in control of your hands and your life as the “**Children of Nature**” (Neteru), and not in the Preacher, Pastor, Rabbi or Imam.

EXPERIENCE means: The **FACT** or State of having been affected by or gained knowledge through direct observation or participation. Practical Knowledge, Skill, or Practice derived from direct observation of or participation in events or in a particular activity.

As the old saying goes “***Experience** is the best teacher.*”

The word **FACT** means: **ACTION!** The more we apply these Laws of Nature (Neteru) in our life the more **Facts** and **Confirmations** we will have and our confidence then grows in our ability to affectively apply these Laws within Nature. No more guessing, no more beliefs and faiths time to **K-N-O-W**, time to have knowledge, time for **Facts!** Come on you deserve it right, aren't you worth it, you owe it to yourselves!

The Law of Attraction

According to the Merriam Webster's Collegiate Dictionary the word "**ATTRACTION**" is defined as: To pull to or draw toward oneself or itself.

The Law "**likes Attract likes**" maintains in the Thought – World, and that one "**Attracts**" to him or herself the **Thoughts** of others which correspond in kind with those held by him or her. Have you ever wondered why certain people of certain professions gather together, like Actors hang out with Actors, or Musicians hang out with Musicians etc... The old saying rains true "birds in a feather, flock together", like minds "**Attract**" to each other. Now let's take time to examine the "**Attractive Power of Thought.**"

As we mentioned earlier around every person is an **Electro-Magnetic Field** of Energy that is influenced by **Thought Waves** coming from either the individual, other people or ultimately your environment. Every thought that we think starts in motion **Thought – Waves**, or **Vibrations** (Vibes) which travel along with greater or lesser speed and intensity varying with the "**force**" of the original **Thought** and which affect, more or less People far removed from the persons sending forth the **Thought**. We as Humans are

constantly sending forth **Thoughts** and are constantly receiving **Thought- Waves** from others.

A Person who “**hates**” will “**Attract**” to themselves all the hateful and malicious **Thought –Waves** within a large radius, and these added **Thoughts** act as fuel to the fire of his base feelings, and render him more hateful and hating than ever.

One who thinks love and has outgrown the old “**Negative Thoughts**” of imperfect development, will not “**Attract**” these “**Negative Thoughts**” to themselves. The Person who thinks “**Love**” will “**Attract**” to himself all the loving Thoughts within their circle of influence. Every Person is constantly surrounded with **Thought – Aura** which affects those with whom he comes in contact.

Every Person is constantly surrounded with a **Thought – Aura** which affects those with whom he or she comes in contact with. Some People “**Attract**” us without a word being spoken, while others repel us as soon as we come within the radius of their **Aura**. When one realizes with their real eyes (**3rd EYE – Mind**) The wonderful workings of the “**Law of Attraction**” he or she sees the importance of so controlling his or her thoughts that they may

“Attract” only the best and most helpful **Thoughts** of the World! Remember always **“likes Attract likes”** in the **Thought World**. Rest assured that what so ever you think will **“Attract”** a corresponding **Thought** which has been sent out from the Minds of others.

Each draws to himself his kind. To not be affected by **Negative Thoughts** of others is to place yourself in proper key, that you may receive only the helpful vibrations corresponding to the **Thoughts** uppermost in your own Mind. Every Person is Master of his or her own Mind, and nothing will enter there unless he permits it. The inside influence (**your own Thoughts**) is much, more strong than the outside (**thoughts of others**). All one has to do to keep your Mind free from **Negative Thoughts** and the undesirable **Thoughts** of others will not be **“Attracted”** to you. Only **Thoughts** that harmonize will find a congenial shelter within your Mind.

Fix your Mind to your own Mental key note and your Mind will not respond to any other Key! When you think Love, Hate will not come near you, when you think Truth; falsehood will not find you, and lying Thoughts will flee from you. **“As a Man Thinketh in his HEART, so is he!”** Your Mind is a **“Magnet”**

drawing to it **Thoughts** in keeping with your **Conscious** or **Subconscious** demands and Desires.

There seems to be a Great Law of Nature (Neteru) whereby an Atom “**Attracts**” to itself that which is needed for its development and the Force that brings about the results manifests itself in desire. There may be many Desires, but the predominate one has the strongest “**Attracting Power**”. This Law is recognized through the various Kingdoms of Nature (Neteru), but it is only begging to be realized that the same Law maintains in the Kingdom of the Mind. Our Mental attitude causes us to draw things to us corresponding in kind to our “**predominate**” Thoughts and Desires. A Thought held firmly fixed in the Mind, and held continually, will “**Attract**” to its holder the things represented by that Thought, excepting in such cases where other Mental influences are at work counteracting the Power of Thought. Example “If two People were to earnestly wishing for the same thing, the stronger **Thought Force** would gain the object.”

The “**Law of Attraction**”, is accomplished by means of one “**Attracting**” to oneself People, circumstances and Ideas of your personal pervading **Thought Force**.

You “**Attract**” like Minds, People who have the same **Ideas**.

The **Law of Attraction** is always at work, no matter how big or small the task you will **Attract** to you the dominate thoughts you are holding in your mind. When we have thoughts of worry, doubt and fear, the Natural Law of Attraction does not decided whether these types of Thoughts are healthy for you, your **Subconscious Mind** works in accord with this natural Law, and brings to you just what is on your Mind on a constant basis’s.

“**Fear**” is one of the greatest “**Attracting**” Forces of the Mind. It is equal to confident expectation; in fact “fear” is a kind of confident expectation of “evil” to come, **ELIMINATE FEAR!** Of course fear expectation vary in degree with the amount of emotional fear being held, but this type of thinking over long periods of time lodges itself in the **Subconscious Realms** of thinking, thus creating new grooves and patterns within the **Subconscious** and manifesting this type of thinking into your life. We are the ones who set ourselves up for failure, none else. Failure becomes a form of disease, because we are so used to manifesting these types of thoughts in our life, that they become our life. Our bodies become addicted to

the chemical emotional responses of failure, disappointment and fear. The time is now to **“ELIMINATE”** Thoughts and Emotions of fear, doubt, and worry. Time to make a new you, you deserve it!

Our Thoughts place us in connection with the outside World and its Forces, and we **“Attract”** and repel People, and things, by the character of our Thoughts being held in our Minds. They and you are **“Attracted”** to each other, because your Thoughts are pitched in to the same **“Thought Key Vibration”**. Remember **“likes Attract likes.”**

“The Successful Man or Woman is he or she who knows how to take advantage of the chances that other People fail to see.” It is time for you to realize within your life that you hold the Power (**Sekhemic Energy**) and the **Ankh** () Key to building up your own Mind. This building that we refer to of course is done altogether in the **Subconscious Field** and the **Conscious Thought** supplying the material and the “I” being the builder, thus you have the mystical meaning of **“I-AM-THAT-I-AM.”**

We are like the wireless operator. We are subjected to miscellaneous wrong **“Thought Currents”** if our minds are not in tune with the Infinite, or if we are

not keyed up to “**Higher Vibrations**” than those of denial. People who think courageous thoughts send these “**Courageous Thought Waves**” through the **Universal Ether** until they lodge and are planted in the **Consciousness** of someone who is tuned to the same courageous thought key. Think a strong **Thought**, and these **Thoughts** will be received by someone who is strong, courageous and prosperous. It is just as easy to think in terms of “**abundance**” as we think in terms of “**poverty**”. The **Law of Attraction** will yield what you think about the most, when you keep thoughts like “I do not have money,” or “My life is hard and is a struggle,” or even “the Country I live in is hard to make a god living”, then guess what? That’s right you got it, The Law of Attraction in Nature will continue to bring you these types of lifestyles and hardships.

When we think “poverty” thoughts we become the sending and receiving stations for poverty thoughts. We send out a “poverty” mental wireless and it reaches the Consciousness of some poverty- stricken “receiver.” We receive what we think about the Most. We get what we think! Oh you receive what you pray for, now you have to become “Conscious” of what you are praying for. Think...

It is just as easy to think in terms of “**abundance**”, “**wealth**” and “**prosperity**” as it is to think in terms of lack, limitation and poverty. When we learn to raise our own **Rate of Vibration** by currents of **joy, hope, confirmation** and **facts** in our life these vibrations go through the “**Universal Mind**” and lodge in the Consciousness of People who are “**keyed**” to the same tune. Whatever you think is sometime, somewhere, received by a person who is tuned into your **Thought Key**.

When People are out of work and we think thoughts of success, prosperity, harmony, position and growth, just as our thoughts are things, someone will receive our “**Thought Currents and Vibrations**” of **Success, Prosperity, Harmony, Position** and **Growth**.

If we are going to be timid, selfish, poor and place little value on our thinking, then these **Thought Waves** which we have started in the **Universal Ether** will go forth until they come to a Mental receiving station of the same caliber. “Birds of a feather flock together” and Minds of like thinking are “**Attracted**” one to the other. When you need money and resources all you have to do is send up your **Vibrations** to a strong, courageous receiving station,

and someone who can meet your needs will be attracted to you or you to him or her.

When we learn that we are entitled to succeed, we are entitled to win, in any right undertaking in life in which we have chosen for ourselves then we will win! When we learn that we have the right to legitimate dominion over our own affairs, we will have dominion over them and thus be the rightful **“Rulers”** of our own affairs and our own lives. The promise is that we can do all things through the Mind that was in **Christ, Christos (Greek), Krishna (India), Karast (Egyptian)**, and meaning **“Anointing”** take up that **“Anointed Mind”** become a **Christ Mind**, receive the gift of **“Christ Consciousness”**.

Law of Attraction is Service!

“For Life, is the Mirror of Ruler and Servant. Just what are you and what do you do; then give to the World the “Best” you have, and the “Best” will be returned.”

There is an old saying that states: **“He profits most who serves best”**. Just look around you in this day and time. What businesses are going ahead? What People are making the big success, making their big mark or impression on the lives of others. Look at

successful people like “**Oprah Winfery**” when she introduced the world to a new thought provoking and heartfelt Television program named “**The Big Give**”. Look at all the People and companies popping up everywhere looking to develop “Alternative” methods to better help serve Humanity and Mother Nature as a whole. “Everybody is going Green!”

The Law of Attraction is Service! We “**receive**” in proportion as we give out. In fact we usually receive in far greater proportion. “Cast thy bread upon the waters and it will return to you a hundred-fold.” Back of everything is the immutable Law of the Universe – that what you are is but the effect. Your thoughts are the causes. The only way you can change the effect is by first changing the cause. Realize “**NOW**” that Universal Mind expresses itself largely through each individual. It is continually seeking an outlet. It is like a vast reservoir of water, constantly replenished by fresh hot springs gushing forth with life and excitement! Cut a channel to it and the Water will flow in ever-increasing volume.

In the same way, when you once open up a channel of “**service**” by which the Universal Mind can express itself through you, its gifts will flow in ever increasing volume and YOU will be enriched in the process.

There are many countries on the Continent of Africa that needs millions for development. Its People are hard working but in their minds they “think” they lack the necessary resources to make their Countries advance and become productive in an ever growing global market.

What Africa needs are insiders, who are willing to provide a service that will enrich the lives of themselves and all those around them. By opening up a channel between Universal supply and Human needs, by doing your neighbors or your friends or your customer’s service you are bound to profit yourself. And the wider you open your channel the greater service you give or the better values you offer the more things are bound to flow through your channel, the more you are going to profit. But you must “use” your talent or talents if you want to profit from it. It matters not how small your service-using it will make it greater. You don’t have to retire to a monastery and pray, or go on a retreat to some far off land. Do not be selfish and deny your talents and gifts you were born with from the World, the World is waiting to hear from you, the World is waiting to feel you, to feel your heart felt warmth, and joy.

Now is the time, you've got to "DO" something, to "USE" the "**Talents**" Nature (GOD, THE MOST HIGH) has given to you to make the World a better place.

Question: In this New Millennium how important are your Talents?

Answer: According to Merriam Webster's Collegiate Dictionary the word **Talent** means: "**The Natural Endowments of a Person.**"

We are now living in the time where the latent powers and abilities in People are starting to service. There are two new driving forces facing People all around the World and these two driving forces are "**Inspiration**" and "**Desperation**". The Law in Nature that People are feeling now deep down inside of their own being is the feeling of Human survival or "**Self Preservation**". In feeling these types of emotions it is causing the Human Species as a whole to tap into new hidden latent abilities never before discover. People are starting to be inspired with fresh **new ideas**; "**Talents**" they never knew they had are starting to come to service.

We are living in the **Golden Cycle of RE** (*The Sun Cycle*) also known as the "**Solar Cycle of RE (RA)**",

whenever the “**Sun Cycle**” comes in it always brings out “the truth” and only the truth in People, whatever you are by “**NATURE**”. In many **West African Countries**, they have what is termed “*A Birthing Ceremony or Re-Birthing Ceremony*”, where the initiate is buried in a mud pit from neck down, and this pit is a “**heated**” pit which is a symbol of “**purification**”. This same ceremony is also seen amongst our Native America brothers and sisters when constructing a “**Sweat Lodge**”. Inside the Sweat Lodge they have heated “**Lava**” rocks and you are in closed in what looks like symbolically a **tortoise shell**, which is the symbol of the “**womb**” of your mother. The Lava rocks are called your “Grand Mother” and “Grand Father” symbolic of the oldest forms of life on the Planet so the energy that is released within these “**HOT**” rocks hold the **Spirits of the Ancients**. This same process of **Sweat lodges** today in modern days are seen in fitness centers around the world called **Saunas**, and in certain sacred sites in other parts of the world like **Japan** you will find “**HOT SPRINGS**” also in places like **Honduras**, and **Peru**, and Countries in **Africa**.

We say this to say all around the world in sacred ceremonies the Element of “**FIRE**”, **heat**, burning has always been used to bring out all impurities, and to

cleanse the **Mind** (KHU), **Body** (KHAT), **Spirit** (KAA), and **Soul** (BAA). Well in this day and time **Planet Earth** (PTAH-NUN) is going through a **Global Purification**. **Nature** and **Universal Laws** are calling for the only “**the Best**” to come out of People, and asking deep within each being to only align with the **Best Qualities of your own Nature**, this is where your “**Talents**” come in. We are living in the day and time where **Nature** brings out what you truly are by **Nature**. Now is the time to align yourself with your “**Talents**” in order to experience true happiness that “**Nature**” has to give. “**Become what you are naturally created to be.**” Your “**Talents**” are very important in this day and time; it sets you aside from the rest, because only you can do what you are “**Naturally**” created to do, so there is no competition. Use your **Talents** to “**SERVE**” Humanity, in the **Positive** and only you will “**Attract**” and receive Positive in return.

Remember the “**Parable of the Talents**” in the New Testament in the Bible. You know what happened to the Man who went off and hid his “talent”, whereas those who made use of theirs were given charge over many things. That parable, it has always seemed to me, expresses the whole Law of Life. The only right is to “**use**” all the **Forces of Good**. The only

wrong is to neglect or to abuse them. “You shall love The Most High your GOD. This is the first and the greatest Commandments.” You shall show your love by using to the best possible advantage the good things (the “**talents**” of the parable) that was placed in your Hands.

“And the second is like unto it. Thou shall love thy neighbor as thyself.” Thou shall not abuse the good things that have been provided you in such a negative way, by using them against your neighbor. Instead you shall treat your Neighbor with love as you would love to be treated.” You shall use the Good you naturally have for the benefit and advantage of all.

“Whosoever shall be great among you,” said Yesua (Jesus) “shall be your minister, and whosoever of you will be chief, shall be “**servant**” of all.” In other words, if you would be great, you must “**serve**”. And he who “**serves**” most shall be greatest of all. Look around YOU now. How can YOU give greater value for what you get? How can you “**SERVE**” better? Remember that whatever “Energy” you put into any situation is setting you up for the next step in life. How many times have you learned multiple things on your previous or even current Jobs, only to realize

the value of what you learned did not come to your Conscious awareness until you moved on to another type of work or profession?

Think about this “When you give to anybody service” in all its many forms you receive the benefit to yourself. When you give more “service” you shall get back more benefits. When you give a great deal more, you shall get back a great deal more. Do you see the pattern here, when you Plant let’s say a Banana Tree, Pawpaw(Papaya) Tree or even a Bushel of Potatoes, you get back thirty or even forty Potatoes, just off one Bushel, the same with the Banana Tree and Pawpaw (Papaya) Tree. Do you see **“The Law of Infinite Supply”** at work! When we pay attention to Nature we learn so much!

Give and Ye Shall Receive

“Give and Ye shall receive” – It is the Truth! The Principle of giving and receiving – only a few People who go the limit of this Principle, but going the limit is the way to **unlimited returns, success, wealth and ultimate happiness**. You ask “what shall I give,” what you have a course! What you have your **“Talents”** give them to everybody make them into a service for Humanity and watch what you **“Attract”** to your life.

If you have an idea that will benefit the mass majority as a whole then do not keep it to yourself, just because you feel you may not have the means to bring it into concrete reality. Give your idea out, speak about it and watch you will **“Attract”** the necessary people into your life to make this great idea manifest into **“concrete reality”**. Remember a worthy **“IDEA”** is an idea that benefits **“ALL”**.

Air, Deep Breathing & Magnetism

Magnetism is in every cell of your Brain and body, but it is scattered throughout the body. When you wish to summon it for any specific purpose you must **“Concentrate”** (*Concentrate means to condense your mental, spirit, soul force energy into a single point*). **Magnetism** of your Brain and Body can be built through a Conscious regime. As magnetism is in the air all about you it is vitally important that you breathe deeply and consciously, when you wish to increase the fund of Magnetism within your body. The Miracle super-forces of your Brain are stirred into **Magnetic Action by Deep Breathing**, so do not neglect this vital function.

The main reason why most people fail in life is because they are not able to focus the power of their

Higher Minds on the achievement of their life goals. Concentration focuses attention and when the rays of your Mind are focused and concentrated all the Atomic Energy of your **Mind** (KHU), **Body** (KHAT), **Spirit** (KAA) and **Soul** (BAA) is released in a dynamic stream of power that will literally perform miracles. These miracles are all based on ***Natural laws of Almighty Eternal Nature.***

Your Brain works on **Electrical Vibrations (Neurotransmitters)** or **Pulsations**, It can receive the “**Mental Thought Forms**” others send out. Your Brain can also project these thought forms to other people. We only stress that in this day and time it is very wise to only use the “**Positive**” side of Energy for **Universal Laws** are always active seeking to cleanse and balance any Negative activity taking place in this day and time. Remember we are in the **Solar Cycle of Re (RA)** “The Sun Cycle”, the cycle of “**Purification**” and “**Cleansing**”.

Within your human brain there are miracles response centers which operate on a higher frequency or wave length than the ordinary, everyday centers. Do experiments on yourself, sit back after doing or performing your experiments and

observe your results. “**Scientists**” observe the results of an experiment.

There is a Hidden power within the **Air (PAA SHU)** this power when overstood can be used to revitalize every cell in the Human Body. This hidden power when applied the right way can be used to raise the vibrations of all those around you, and can also be used to raise your own “**Emotional Vibrations**”. The Hidden Power that is contained within **Air (PAA SHU)** is termed in Ancient TaMa-Re as “**Sekhemic Energy**”, or simply “**Sekhem**” meaning **Power, Absolute Energy** and **Life Force**. Being all Mystical and Esoteric Sciences and teachings came from Ancient TaMa-Re (Egypt) when other Cultures came into TaMa-Re (Egypt) in order to study and learned they also learned these sacred Sciences and went back to their distant lands and translated the TaMa-Reans terms in their own Languages to make this Universal Science better over stood to their own People.

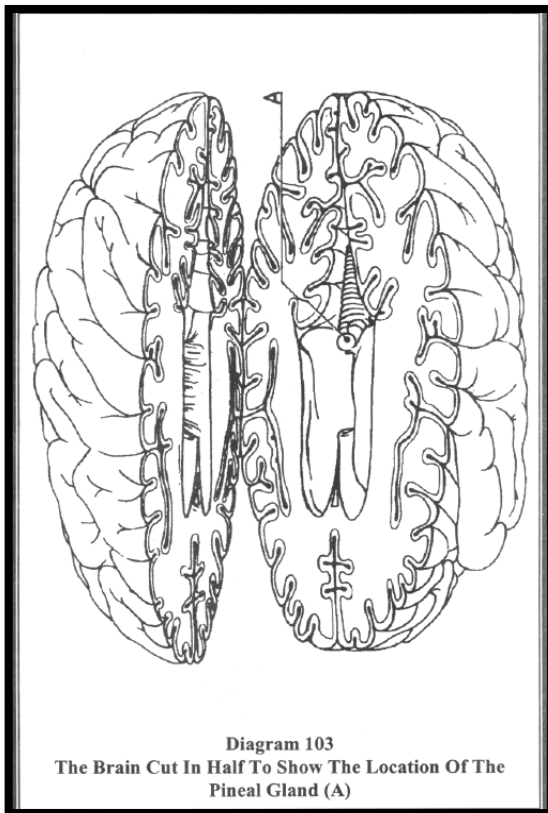

The word “**Sekhem**” became known as “**Prana**” in India Yogi practices and “**Chi**” in Chinese Taoist Schools of thought and learning. We as Africans and true Ancient TaMa-Reans (Egyptians) prefer to use the word “**Sekhem**” pronounced (**SECK –HEMMM**)

which induces a **Vibration** to the speaker and our Ancient tones are aligned with our **Physiological** (Physical) makeup and helps to open certain **Brain Centers** in this day and time thus inducing a Higher State of Conscious Awareness, thus making us better receptors to the “**Vibrations**” coming from Nature (Neteru).

Sekhemic Energy “Life Force” is energy exhibited in all living things, and is seen as an “**active**” Principle of Life’s Vital Force. In Ancient TaMa-Re we viewed **Sekhemic Energy “Life Force”** in all living things and when it seized in living things we viewed a lifeless shell. **Sekhemic Energy** is known as a **Universal Principle** and Energy that is the essence of all Motion, Force and Energy. Whether manifested in the Laws of Gravitation, Electricity, The revolution of the Planets, and all forms of Life, from the Highest to the Lowest. All is in “**The ALL**” (PAA PAUT), as perceived by our Great Ancient TaMa-Rean (Egyptian) Ancestors.

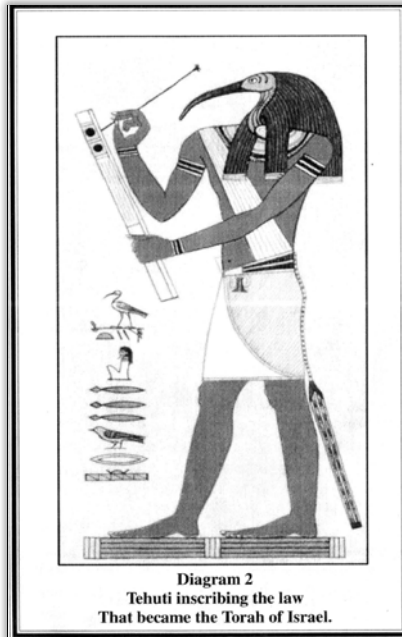

Sekhemic Energy may be called the **BAA “Soul”** of Force and Energy in all their forms, and this Principle which operates in a certain way, causes that form of activity which accompanies Life. **Sekhemic Energy** is in all forms of **Matter**, and yet is not “**Matter**”; it is in

the Air we breathe yet is not the “**Air**”. Animals and Plant life breathe it in with the Air, and yet if the Air contained it not they would die even though they might be filled with Air. It is taken up by the System along with the **Oxygen**, and yet is not the **Oxygen**.

Pineal Gland - The Black Dot - Amun-RA

In the Hebrew writings of the Book called the Torah of the Jews, **“Genesis” (Genealogy of Isis –Aset)** knew the difference between the **“Atmospheric Air”** and the Mysterious and Potent Principle contained within it. The Rabbi’s speak of **Neshmet Ruach Chayim**, which, translates to mean **“The Breathe of the BAA Soul”** or **KAA “Spirit of Life”**. In the Hebrew Language, the word Neshmet means **“The Ordinary Breath”** of the Atmospheric Air, and the word **Chayim** means **“Life or Lives”**, while the word **Ruach** means **“The Spirit”** of Life, which the Ancient Egyptians taught is the same Principle Energy which is spoke of as **“Sekhemic Energy”**. Please Note: The writer of the Bible called Moses got it from Egypt. He was a Student of **Tehuti** or **Thoth**, also called

“**Melchizedek**” in the Bible and who the Greeks called “**Hermes**”.

Sekhemic Energy is in the **Atmospheric Air**, but it is also elsewhere, and it penetrates where the Air cannot reach. It's also called “**Ether**”, which is the 8th Element on the Etheric Elemental chart. What we must remember in dealing with subtle energies is that everything on the Physical Plane of existence has a Etheric or Ethereal Counterpart, that can be viewed as a “mirror world”. Which is why in Ancient healing practices, ancient healers would not just view sickness or illness as a physical disease (dis-ease) they would look into the more subtle realms of **Energy** or **Etheric** (Spirit) Worlds to see what is causing the illness. Ancient Healers in **Ancient TaMa-Re** (Egypt) called **SUNU** meaning “**Doctors**” or “**Physician**” and look at the word Physician you see “**Physic –ian**” or “**Physics**” as in “**Quantum Physics**” the study of “**ALL -Nature**”. So in **Ancient TaMa-Re** (Egypt) we always viewed **Life** from a **Holistic (ALL)** points of view or **Perspective**. We took time to examine and look into the **Mind (KHU)**, **Body (KHAT)**, **Spirit (KAA)** and **Soul (BAA)**.

We knew as **Ancient Alchemist** (***Al-Kham** = The Black Sciences* also known as ***KHAF-RE** = the Manipulation*

of the hidden Elements and Forces within Nature, or the Transmutation of Space, Matter and Time) that the 99 Elements all had Spiritual counterparts or more Subtle Energies, Etheric Energies that caused these 99 Physical Elements to manifest. So **Oxygen**, which is the 8TH Element in the **Air**, plays an important part in sustaining **Animal Life**, and **Carbon** which is the 6th Element plays, a similar part with **Plant Life**, but **Sekhemic Energy** has its own distinct part to play in the Manifestations of Life, aside from the **Physiological** (Physical) functions. We as Human Beings are constantly inhaling “**Air charged with Sekhemic Energy**”, and we are constantly extracting the latter from the Air and appropriating it to our uses. **Sekhemic Energy** is found in its freest state in **Atmospheric Air**, which when fresh is fairly charged with it. And we draw it to us more easily from the Air than from any other Source.

This **Sekhemic Energy** is responsible for creating a “**Magnetic Current**” of Energy around your Body thus charging your **Electromagnetic Field** called your **Aura**. Through deep breathing and Positive Thought Force, you can become more “**Magnetic**”, thus more “**Attractive**” you can increase your ability to “**Attract**” positive, good and loving Vibrations to

yourself, which in turn will radiate and heal all others.

Practical Application-

Increasing Magnetic Vitality

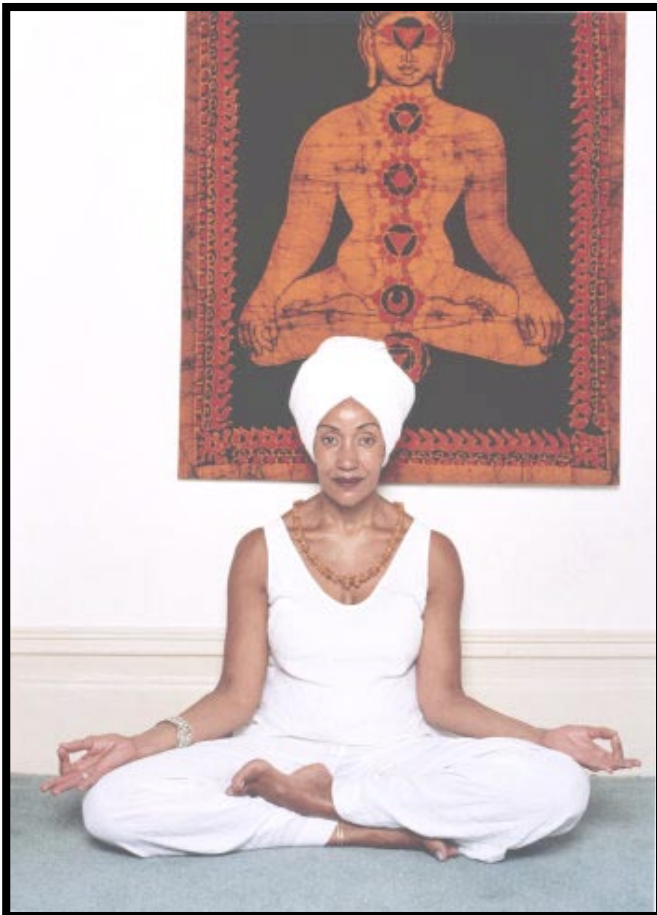

In order to increase “**Magnetic Vitality**” within your own bodies atmosphere known to many as your **Aura**. You can try this simple but powerful exercise everyday upon waking up, (**Atum-Re**) and just before resting for the evening (**Amun-Re**). The length of time for this exercise is totally up to each individual. Remember “**results**” are what we seek, the more you put into anything the more you will receive.

- **Pick a place that you will be most comfortable; this place should be Peaceful, clean, and free from distractions. You can also have the room scented with your favorite fragrant incenses and soft meditative music.**
- **You can either chose to stand in a erect, yet comfortable position, or sit in a relaxed comfortable chair or even lie down flat on your back and be relaxed as possible.**

- If you choose to sit, which is perfectly ok, it is all up to you, make sure your back is straight as possible but that you are comfortable and stress free. Feet should be flat on the ground as to have your Energies pass to the Earth (PTAH-NUN). Palms should be flat face down relaxed on each leg.
- Now relax, place yourself in a Peaceful, Calm, Joyous Mood. Take Nine deep breathes “Inhaling” through your Nostrils and “Exhaling” through your Nose. On each inhalation say to yourself Mentally “I am Magnetic, I am Attractive, I am connected to a Pure Stream of Loving Energy.”
- Allow yourself to relax and “just be”, take time to listen to the “inner you”, the “real you”, you will know and fill when it is time to complete this exercise.

Also Note: Inhalation “Charges” or “Electrifies” your **Aura (Body Atmosphere)** with **Positive (Outpouring) Energy**. Exhalation “Magnetizes” your **Aura** with “**Negative**” (In pouring) **Energy**. So the deep breathing expands your Aura, and

causes your **Thought Currents** to be “**Electrified**” and sent out all around you, and when you inhale this cause your Aura to be drawn back towards you fully “**Magnetized**” opening you up to receive the **benefits** from the **Thoughts** you have projected out.

When we use the word “**Positive**” and “**Negative**” we do not mean “**Good**” or “**Bad**” we are describing the way “**Energy**” flows within and around the Body as a whole, your body has a “**Positive**” and “**Negative**” **Polarity**. **Positive Energy** in Esoteric Schools of Thought is also known as “**Masculine Energy**” a giving out and **Negative Energy** is also known as “**Feminine Energy, a receiving or receptive energy**”. In this day and time People both Men and Women are learning to tune into more of their **Feminine** sides which is “**WHERE OUR LATENT PHYSCHIC**” abilities lay dormant.
